

Minimum Order Amount

The minimum order amount is \$60.00 at the distributor's net billing price. Parts orders should be placed separate from equipment orders. Freight charges do not count towards the minimum. This includes warranty parts orders.

Freight

Transportation charges are freight prepaid and are added to the invoice.

Distributor pays the freight charges, unless the invoice is over \$2,700. If the order is over \$2,700, the order is shipped prepaid freight.

Shipment

Parts Orders will ship as soon as product is available.

Orders will normally be scheduled for shipment within two (2) business days following the day the order is received, for all stock items.

Immediate Shipment Charge

If all products on your order are in stock, an immediate shipment option is available for a \$40.00 service charge.

Please coordinate with your customer service representative to arrange any Next Day or 2nd Day Air requests.
